The Honorable Verle A. Pope
President of the Senate

June 26, 1967

Sir:

I am directed to inform the Senate that the House of Representatives has passed with amendments—

By Senator Askew—

SB 1317—A bill to be entitled An act making appropriations; providing moneys for the annual periods beginning July 1, 1967, and July 1, 1968, to pay for fixed capital outlay—buildings and improvements; providing an effective date.

Amendment 1

Strike everything after the enacting clause and insert the following:

Section 1. The moneys in the following items are appropriated from the general revenue fund for the indicated fiscal years of the biennium to the state agency indicated, as the amounts to be used to pay the salaries and other expenditures of the named agencies, and are in lieu of all moneys appropriated for these purposes in the indicated sections of the Florida Statutes, and are in addition to any other appropriations enacted during the 1967 sessions of the legislature. Appropriations made in items 14 to 16, 17 to 20, and 21 to 27, to the board of commissioners of state institutions and in items 55 to 66 to the board of regents may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to another agency or institution within the same division or between institutions of higher learning with the approval of the budget commission upon its determination that such transfers are necessary because of transfers of inmates or patients from one institution to another, because of shifts in the number of full-time equivalent students budgeted at each institution, in order to adequately provide the necessary services at each institution which the budget commission determines to be in the best interest of the state; provided, however, the total annual appropriation in this section to any such institution may not be increased or decreased by more than twenty percent (20%) as a result of such transfers.

Appropriations made in items 17 to 20 to the board of commissioners of state institutions may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to be used for community mental health programs authorized by the 1965 legislature upon recommendation of the division director and with the approval of the budget commission, upon its determination that such transfers are in the best interest of the state; provided, however, the total amount which may be transferred pursuant to this provision shall not exceed ten percent (10%) of the total appropriations in items 17 to 20. Appropriations made in items 21 to 27 to the board of commissioners of state institutions may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to be used for community mental retardation programs authorized by the 1965 legislature, upon recommendation of the division director and with the approval of the budget commission, upon its determination that such transfers are in the best interest of the state; provided, however, the total amount which may be transferred pursuant to this provision shall not exceed ten percent (10%) of the total appropriations in items 21 to 27.
